Our award winning software, will maximise the performance of every resource in your organization while reducing your cost and risk. We are a niche company, yet highly active within our industry. Our customers range from the largest studios and network service providers as well as the end user, the television viewer. GojiHome Entertainment and Productivity Software Limited is the leading developer and manufacturer of award winning entertainment and home video software. We are dedicated to designing and delivering affordable and reliable software solutions to meet the needs of the professional markets. Our goal is simple; to provide the best possible, reliable and useable solutions for everyone involved in the entertainment industry. We are specialized in multimedia systems and managing content distribution networks. JackSpin.com JackSpin.com was launched in 2008 and is the center of our online presence. It is home to our online community, our e-newsletter, as well as our flagship product - Business Publishing Software; which hosts the websites of our business division. In addition, JackSpin.com also includes the FunSPIN Microsite, which includes the interactive entertainment company owned by our parent company. Businesses are promoted using keyword search, making it easy to find and target the right audience. Without our software the websites would be terrible websites. Our software creates marketing solutions using a combination of SEO, social media, and other techniques. This allows the websites to rank #1 for a given search, making it easy to find the right audience - which is also why it's so affordable. Software for small business. We are software developers. We build powerful tools for the small business market. The one's that shouldn't have to
