Q: How to do a smooth screen transition from landscape to portrait and vice versa? Is it possible to have a smooth screen transition from portrait to landscape and vice-versa in Android? I thought that I could achieve this by doing the following: However, when the orientation changes to landscape, the screen will disappear and then immediately appear again. Is there a way to prevent this from happening? A: Just add this to your AndroidManifest Update: Unfortunately, you don't get any intellisense while declaring android:configChanges, so it's pretty tough. But with a bit of trial and error, here it is (taken directly from David's answer):

```
public class ExampleActivity extends Activity { @Override public void onCreate(Bundle savedInstanceState) { super.onCreate(savedInstanceState);
```

System Requirements:

Windows 7 (64-bit), Windows 8.1 (64-bit), Windows 10 (64-bit) 2.3 GHz Processor (Dual Core, Quad Core recommended) 4 GB RAM (8 GB recommended) 2 GB Video RAM (256 MB recommended) 500 MB available space NVIDIA GeForce GTX 460 (1 GB recommended), ATI Radeon HD 4850 (1 GB recommended) or AMD equivalent Internet connection for downloading Administrator rights Dolby Digital 5.1 Support 1080p HD video resolution
