(Click on image to enlarge) High above the city, on a lamppost, you are our saviour! The entire city is in the dark, they are relying on you to bring some light to the city. Will you be able to save the day, once again? Just like the other zombie games, you only have ammunition to defend yourself, and can either upgrade your weapons as the game progresses and defeat the zombies that overrun the city. If you are having trouble with the zombie hordes just jump up onto the street to save your life. If you have a gun, bring that along. And keep in mind, as you are playing the game, you have to become a hero to save the town. It's really that easy! Can you fight your way out of this zombie apocalypse? With this zombie game, you are given the chance to save a city from a zombie apocalypse, and you play as a heavy gun who fights back against the hordes. As you play, you will upgrade your weapons, learn new skills, and defeat zombies, all while being a hero.

What's new:

Core Rules The Wilderlands Campaign Setting for Savage World Vampire The Masquerade The addition of archetypes to the Core Rulebook makes Pathfinder(R) for Savage Worlds (2010) a worthwhile hit. With this set of add-on archetypes we can get the most of the archetypes and build powerful NPCs and monsters from scratch. There are plenty of templates to build NPC and monsters, unlike all previously released Pathfinder RPG material, where there is little if any ability to customize an NPC or monster. Here we will mainly focus on Two Cores: Player Archetypes: Heroes and Madmen The Player Archetype collection is divided into two core elements: (1) Heroic Heroes and (2) Madmen. These two categories are more intended for players who want to play Pathfinder rather than setting-specific adventures, so the set contains two figures for each category (the others being short options, the option in the Heroic Heroes category is the Common Folk variant). Heroic Heroes are mostly suitable for players who want to make wacky characters, but not only adrenaline addicts. Instead, heroes have a special gift or talent and have a little something extra, even if it is only some extra attribute (berserk, agility, spellcasting) or attribute (intelligence). They say that the people who think a little odd and have some sort of extra-healthy will do well... Madmen, on the other hand, are more for adrenaline junkies. These characters have more or less agreed to be possessed by a Dimensional Invader of some sort, this invader may control every aspect of the character's body, mind and magic

(commanding insanity, berserking, rejuvenating etc.). That of course makes the character somewhat like the always-vulnerable version of one of the factions from the Blood Feud setting. The Madman-approach uses the full-power of d20 dice, giving rise to a heavily-dice-invested theme, which fortunately also makes the characters to a little higher level than the Heroic Heroes (MM1-3). Orcs Orcs are among the toughest of the d20-figures. It is not that bad that we have nowadays some new (re)interpretations for them, but that for 20th-80's orcs were... well, basically grey metal men. With this new set of archetypes we get a greater variety of them. The d20 recommendations on the Savage World

The ninja village of Kohinomura is facing the evil Shogun's army of evil ninjas, samurai and yokai generals. The coffee-nin were the only ones that could defeat them, and now only Kohimaru, the last of the Coffee-Nin remain, to avenge the death of his entire clan and save Kohinomura from annihilation. But first he has to stop the evil samurai General Tanaka and his ninja henchmen from summoning the greatest yokai on this planet, the great yamabushi! Kohimaru will have to learn many things in the level, like how to jump using a coffee pot, how to dash and how to dodge obstacles, even while running at hyperspeed! Use the coffee pots and the launchers you find to teleport to the next level, and fight your way to victory. Kohimaru the coffee ninja! The worst enemy of all time: Slumber Sub-Shogun Tanaka
