"The music is by Michael Kauth, a prominent composer for Far Cry and other games. The theme, entitled "Have we fallen yet?" is one of a series of video game tracks composed by Kauth for Ubisoft. It's a lovely track and ties the game more strongly to Far Cry, which makes it easier to imagine where the game would fit in the series." About Far Cry: "It fits in perfectly with the Far Cry series, and it would be an apt theme, as the game is full of travel and exploration, with players forced to explore unknown locations and overcome challenges. The theme is certainly very Far Cry-like. Serenity: "The music, by Michael and Chuck Kress, is a good fit for this mysterious world. It feels like a serious setting, with crescendos and contrast to the piano work as the Islanders come into view. With a sense of dread, the piano work intensifies during the second and final encounter. The game is a good fit for Far Cry, but when I hear the track after playing the game, I'm not so sure. It just doesn't feel like Far Cry. I think Michael Kauth might have paid homage to the Far Cry 2 soundtrack - The Seaside Track (Beach Theme). Without spoiling anything, the track plays during the ending of the game. It was done by the composer of Far Cry 1, Clint White. To me it sounds like he took a similar track and did a subtle interpretation. There is a piano piece also by Kauth, that plays at the beginning when you first get on the boat. Kuth said something like "You don't feel like a pilgrim anymore, you feel like a spy" or something similar." "Das Gesamtpaket aus einer Story, die einen ganz neuen Aspekt präsentiert, einer sehr schönen Grafik mit winzig, kleinen Details, tollen Synchronstimmen, angenehmer Hintergrundmusik und gut platzierten Soundeffekten sowie Rätseln, die einen zum Lachen bringen, ist einfach hervorragend gelungen!" 95% – 82% – 90% – Kingdom of Games About The Game Anomie - OST:

* This game is made with RPG Maker MV * You can modify the scene in any way, just be careful, if you were not careful the game may not be playable anymore. * This game is made by Japanese people. * We only provide hints for the English parts. * We only have one development with our current team. That means this is the last add-on. It's a small passion project, but hopefully we get more feedback to develop it in the future Thank you for your time! # How to play * When you play the game, press the play button. You'll notice that the timeline is displayed above the scene. Pressing the "X" button will bring up a gameplay menu, allowing you to play the entire scene, or to modify the current scene. * Be diligent with each movement you make to win the battle. * If you press the enter key in the gameplay menu, your character will start moving. Be sure to use the spacebar to jump or press the spacebar to'stop' the timeline. * Try to find some "Ambitions" to increase your chances of defeating the enemies. * If you've thought-out your movements carefully, you will be the last samurai standing. * Enter in the URL of your scene to view your progress. ## Known Bugs * The mirror on the stage may flicker when the game is played. Octarina Game Tips and Tricks: Sushi Console Training Game The first level is quite easy and just takes you a few minutes, so don't get too worried and enjoy the game. Some tips: Escape from the sushi factory by trying to jump between the environments and hitting the platform that looks like a soft substance, this way you will have a longer fall and won't be damaged much. Jumping on walls and throwing things to push other things can be used as an alternative to jump. Sometimes you have to get rid of things that are on your way to get through the level. The orange bricks are a good example. If you let them go, they block the way and you won't be able to reach the next level. Octarina Editor Game Octarina is designed and created by IndieSOFT and features a timeless graphical style with bright colours. The graphics are bestialistic and have an artistic or symbolic character. Bugs can be found in the game when you are under a lot of stress or something happens very quickly. In the editor mode, this is also the reason why there are some flickering textures which can lead to a crash. The editor itself is developed in Unity and so does not feature a 3D game engine, but it does have its own editor. The editor also features the possibility to copy or change files from other levels made with Unity. The editor also includes all game functions such as the inventory, the ability to save, load and modify settings, a level selection and so on. Audio: The soundtrack of Octarina is based on several references of Chinese composers and movies. Mainly orient yourself towards sounding like The Lion King or Kung Fu Panda. Octarina Edit Mode - Demo Octarina is an indie puzzle platformer that has a sci-fi / fantasy theme. It's a physics-based game where you control a little octopus in a sushi factory. Octarina is intended to be a puzzle platformer, where you have to find a way to escape from a little octopus trapped in a sushi factory. Play it for free at indieSOFT.com. What's new in The Fridge Is Red:

on the road and must win consecutive games at Stamford Bridge and Old Trafford. They face Spurs and Liverpool in London before hosting Manchester City away, which leaves them 10 points behind leaders City and Manchester United who have a game in hand. Liverpool have two games in hand, Manchester United one and Tottenham only two. The Merseysiders face Stoke City, while Chelsea face Aston Villa away with both sides one point ahead of the clasical rivals. It is a lot to ask of the Blues, but when you have the likes of Didier Drogba in your team then it is incredibly difficult to be consistent, but I'm sure they can do it. Chelsea have lost their last three matches, but two of them were penalty shootouts and the most recent one where they played Derby County to an unremarkable 1-1. It will be a much tougher task for the Blues in the coming weeks, but Mourinho has managed to get out of a similar position before as he did a few years ago at Real. The 66-year-old Portuguese has the chance to go on a fantastic run as manager of the big clubs of European football. Nice choice of car for Paul Stirling from tweeters melty. Reps of the world football lovers and English football still has not seen the English League Cup final our team is one and only team to have won the Cup. Chelsea tickets at the 2012 League Cup final read that some fans were so violent they needed hospital care. According to witness Mark Gardener-Jones—who sits a mere 182 miles west of the trophy's arena—the madness began well before kickoff. Chelsea Tickets in Las Vegas The prospect of Mourinho's squad to take on Reading and Manuel Pellegrini's in the last-four clash with Spurs before the Wembley final is determined by their difficult fixture list. It may have an effect on their mentality on another level after their 2010 Championship Play-Off semi-final humiliation to Liverpool. Il will no doubt be looking at how Liverpool have fared in losing important games like this and will be hoping that the season is more comprehensible to them than they saw themselves. But Ewood Park at the time was abuzz with talk of where their England midfielder was heading in the following year—Reds felt Chelsea's Champions League semi-final win over Barcelona was compensation for Arsenal's season-dragging injury problems. The English press in general were unimpressed, with the Daily Mail wondering whether or not he "would be buying
