When you are told that you are a dog, there are some of you that believe you are a dog, some of you deny it, but it is so, and a good dog knows it. For example, my day begins when the sun rises, and ends when the sun goes down. When it is the rain, I do not mind. When it is snowing, I like it. When it is windy, I do not mind. I like all kinds of weather. Yet, as the saying goes, "There are two things that we cannot control", and "There are five more that we are not even aware of." When you go on a road trip with your family, there will be times when you become restless, but the reason is that you are so tired that your legs need to rest, while if you choose to get up and go for a walk, then you have to make it good with you. In the same way, it is the walk with our owners that we need to go on, as with that walk, our legs will need to rest and therefore, we will become impatient. If you are like this, you will not be making any progress for what you want to achieve. If you choose to stay home, then you can just get another dog, but if you choose to be with me, then you are going to have to keep in mind, just where am I going and what am I supposed to do in order to know? The same is the case with all of you; when you go to work or school, you will make progress. In the way you are living, as is the case with me, it will have to be good with you. You will just have to sit there and not move. When you choose to be with me, you will have to remember all of the things that I am capable of doing. In the end, it will be a time that you will not be able to remember. For example, one night I decided to go out in my room where my favorite chair was. When I was doing this, I could not even think of my own name
