New Stack Related Menu For The Members I have created a new menu for the members to download more stuff. The new menu links to a page where the members can download more cheats, bugs, enigmas, codes and check online for new maps of Hexen2 in the H2MAPS project. If you haven't noticed on the new menu below, I have added a new sub-menu called "Tools" which you can download some cool tools for Hexen2. I have released the beginner's cheat tester here <http://web.archive.org/web/20060...3t-tester.zip> which allows the user to select a cheat and type the commands that are needed to activate it. The cheat tester automatically generates the cheat itself so you don't need to crack the zip file yourself. Another cool thing about this cheats tester is that you can help me make it more useful and that way you can make your own cheat and help others to make cheats. It's definitely not my best work but you can go to my picture gallery and download the tester from there. I have also released a H2MAPS related tool, a fogger for Hexen2 maps. It was my suggestion that this tool should be posted here and can be downloaded from my picture gallery.
