Using previous advances in communication protocols to manage POS hardware, cloud POS systems are platform and operating system agnostic. The GFI Mobile POS solution can now be used on any Android, iOS or Windows device to manage, control and monitor your POS equipment. GFI Mobile does not require software updates, so you do not need to download new applications to work. In addition, GFI Mobile works on all devices. Now there is no need to purchase POS devices and software. With GFI Mobile, you can use your old POS systems without buying new hardware.
