
Acer A510 Starting Fastboot Usb Download Protocol UPDATED

Download

November 6, 2012 - I unlocked the bootloader by running: # adb reboot-bootloader // wait . Starting Fastboot USB Boot Protocol" in the top left corner. In my case, it started 2 seconds after clicking on this button. From the Fastboot menu, select "Recovery" and click "Install package files". This will download the install.zip file to the "Custodio" directory", which you can see in C:\Program Files\Eclipse\Recovery . Make sure the downloaded file is called install.zip . Then select the "Custodio" folder and click "Install". After you do that, you will see the Recovery menu (I had "Normal Recovery" item) Select "Normal Recovery"
